

Roadster Donor Parts List

DONOR PARTS REQUIRED FROM A 1987 TO 2004 FORD MUSTANG

NOTE: In some cases not all parts listed below will be necessary, but it is suggested to obtain all parts to avoid future difficulties.

	PART NAME	CHECK
Engine/Drivetrain	Engine	
	Motor mount, (L,R) w/nuts and bolts	
	Starter	
	Transmission, bell-housing, clutch, and shifter components	
	Transmission mount w/nuts and bolts	
	Driveshaft w/4 bolts	
	Clutch cable w/bell-housing retaining c-clip	
	Speedometer cable (87-93 applications only)	
	Speedometer speed sensor w/plastic gear	
	Mass air sensor with flexible elbow	
Exhaust	Oxygen sensors	
	Exhaust headers w/nuts and bolts	
	Flexible exhaust hanger	
Cooling	Upper and lower radiator hoses	
	Heater hoses to firewall w/clamps	
	Radiator w/clamps	
	Fan shroud or shroud with attached fan	
	Coolant overflow tank w/cap	
Fuel Sys.	Fuel tank w/plastic under tray, gas cap, and mounting straps	
	Filler neck	
	Fuel filter w/mounting bracket and hoses	
	High pressure fuel line, tank to filter	
	Low pressure return line to fuel tank	
	High and low pressure solid fuel lines attached to engine fuel rails	
Brakes/Wheels	Fuel evaporative canister, solenoid and tubing	
	Front and rear brake rotor/drum, calipers, pads, flexible lines, etc.	
	Mount front and rear brake line, riveted to donor	
	Master cylinder, w/distribution block	
	Hydrobooster with all power assist lines (96-04 applications only)	
	Front and rear wheels with lug nuts	
Suspension	emergency brake handle, w/t-junction	
	Emergency brake cables w/hardware	
	Rear quad shocks w/mounts nuts and bolts	
	Spindles, front	
	Rear upper control arms w/nuts and bolts	
	Rear lower control arms w/nuts and bolts	
	8.8inch complete rear axle assembly	
Rear coil springs w/OEM rubber isolating pads		
Steering	Front lower A-arms w/nuts and bolts	
	Power steering lines if using power steering	
	Steering rack with mounting bushings	
Electrical	Inner and outer tie-rod ends (87-93 applications only)	
	Wiring harness (all)	
	Emergency inertia cut-off switch	
	Turn signal stalk, and ignition cylinder w/key from steering column	
	Horns	
	Vacuum resevoir, black plastic cylinder shaped	
	Battery w/ground cable	
	Coil, starter solenoid	
EEC IV Computer w/holder		
Misc.	Brake/clutch pedal box w/brake sensor, retaining clip, washers	
	Accelerator pedal	
	Gauge cluster
